

STATE OF INDIANA BUDGET REPORT

FOR THE BIENNIAL JULY 1 2003 TO JUNE 30, 2005

SUBMITTED TO
FRANK O'BANNON

GOVERNOR
STATE OF INDIANA

BY THE
STATE BUDGET COMMITTEE

STATE BUDGET COMMITTEE MEMBERS

SENATOR VI SIMPSON, CHAIR
REPRESENTATIVE WILLIAM C. COCHRAN
SENATOR ROBERT L. MEEKS
REPRESENTATIVE JEFFREY K. ESPICH
MARILYN F. SCHULTZ, BUDGET DIRECTOR

ALTERNATES COMMITTEE MEMBERS

SENATOR LINDEL O. HUME
REPRESENTATIVE DENNIS T. AVERY
SENATOR LUKE KENLEY
REPRESENTATIVE LAWRENCE L. BUELL
MICHAEL LANDWER, DEPUTY BUDGET DIRECTOR
DAVID REYNOLDS, DEPUTY BUDGET DIRECTOR

The State Budget Committee does not discriminate in the provision of its services on account of a person's race, color, sex, national origin, or disability.

**TO GOVERNOR O'BANNON
AND MEMBERS OF THE INDIANA GENERAL ASSEMBLY**

Pursuant to IC 4-12-1-9, the State Budget Committee has reviewed the requests for appropriations submitted by state agencies and universities. The State Budget Agency presented a budget recommendation to the Budget Committee on January 9, 2003. No action was taken on these recommendations by the State Budget Committee.

THE STATE'S FISCAL PICTURE

At the end of fiscal year 2002, the annual revenues for the state of Indiana had declined below the previous year's total for two years in a row. The December 18, 2002, forecast for fiscal year 2003 predicts annual revenue for 2003 will grow by only 1.5 percent over the revenue base in place prior to the passage of the tax re-structuring and tax increases resulting from the special session in June, 2002. The forecast for the General Fund (exclusive of the Property Tax Replacement Fund) for the 2003-05 biennium is that actual revenues will increase over the 2003 fiscal year by only \$3 M, or 0 percent in 2004; and for 2005, by \$300 M, or 4.2 percent.

The tax re-structuring and increases passed in the special session of June, 2002, provide for increased funding going into the Property Tax Replacement Fund (PTRF) to offset the expected increases for homeowners in the on-going reassessment, and to remove approximately 67 percent of the general fund levy for public schools from the property tax. With this legislation, about 85 percent of the total operating costs for schools will be paid by taxes levied by the state and returned to property owners in property tax relief. Almost all of the increases in expenditures projected in the Governor's budget recommendations will be for an increase in the property tax relief appropriation for local schools and units. Of all state tax revenues collected in FY02 and deposited in the GF and PTRF, 13.5 percent was used for property tax relief. With the passage of HEA 1001-2002 (ss) 21 percent will be appropriated for property tax relief in FY04 and in FY05.

This forecast, while showing a very slow and gradual rise out of the present economic crisis, will require very careful management of state's resources. With virtually no additional funds available for increases for the formula for funding public schools, universities, programs administered through state agencies, the budget recommendations represent a flat-lining of expenditures at the already reduced FY03 levels, with additional cuts to categorical grants for public school and in other areas.

The recommendation for the FY03-05 biennium provides for a budget “in the black” on June 30, 2005. This is achieved without tax increases and without major additional cuts for agency and educational operating budgets. However, it is “in the black” because of transfers and leaves only \$319.3 M in combined reserves at the end of FY05. The Rainy Day fund will be reduced; the Tuition Reserve will not be used, and will comprise most of the remaining reserves.

INSTRUCTIONS FOR FY04-05 BIENNIUM

State agencies were required to submit budget requests that conformed with the spring 2002 Deficit Management Plan, which called for a 7 percent cut from FY03 appropriations. The agencies also were required to absorb added costs caused by inflation and past health insurance increases that, in normal budget years, would have added 5 percent to 7 percent to each agency’s personnel costs. This resulted in agency cuts or absorption of about 12 percent to 14 percent of their previous budgets.

The Recommended Appropriations for state agencies are nearly \$300 M below what they would have been if the FY03 appropriations had been flat-lined.

Reduced General Fund & Property Tax Replacement Fund Appropriations for the FY04-05 Biennium

| Function of Government | Reduced Appropriations for the FY04-05 Biennium |
|-------------------------------------------|--------------------------------------------------------|
| Family and Social Services Administration | 68,475,972 |
| General Government | 124,495,338 |
| Other Public Safety | 82,039,097 |
| Judiciary | 3,708,939 |
| Legislature | 2,441,545 |

These reduced appropriations levels were achieved through cuts and replacement dollars from dedicated funds.

Recommendations:

- 1) Tuition support appropriations from the General Fund and PTRF have been flat-lined at FY03 levels. The recommendations include \$200 M from the securitization of 40 percent of the Tobacco Payments be committed to k-12, with approximately \$50 M to fund the FY03 school formula deficit, \$50M for technology, and \$200 M to help close the Achievement Gap and continued progress towards higher standards.
- 2) The ADA flat grant and the transportation grants will be cut by 50 percent in the first year and 100 percent in the second to reduce the deficit.
- 3) Appropriations for higher education are flat-lined at the FY03 levels. The Repair and Rehabilitation formula is funded at 25 percent.
- 4) Medicaid is funded at the forecast level.
- 5) Most FSSA programs are flat-lined at FY03 levels. Exceptions include a 2 percent cut in the Division of Family and Children representing a \$3.3 M cut, transfer of the IMPACT program to the Department of Workforce Development; closure of a wing or ward at one of the state developmental centers, saving \$1.7 M; and closure of a wing or ward at a state hospital (excluding Evansville), saving \$1.35 M.
- 6) To accommodate the expected increases in adult male inmate populations, additional beds will be opened at Miami and New Castle, maintaining the per diem rate per inmate, but increasing costs to the state by approximately \$24 M over the biennium.
- 7) The recommendations permit counties to increase their local levies on a one-time basis to pay the state for their past-due bills for juvenile collections.
- 8) This proposal uses \$190 M per year from the Pension Stabilization Fund to pay current and increased costs in benefits. The \$30 M annual payment from the gaming funds will continue.
- 9) The Personnel Contingency Fund is straight-lined at \$89 M.
- 10) Recommendations for state capital are reduced by \$56.6 M from both the General Fund and dedicated funds. This means that, for four years, the state will have performed only emergency preventative maintenance and repairs.

(1) \$35 million of the reductions in the Other Public Safety category represent the use of dedicated funds in lieu of general fund.

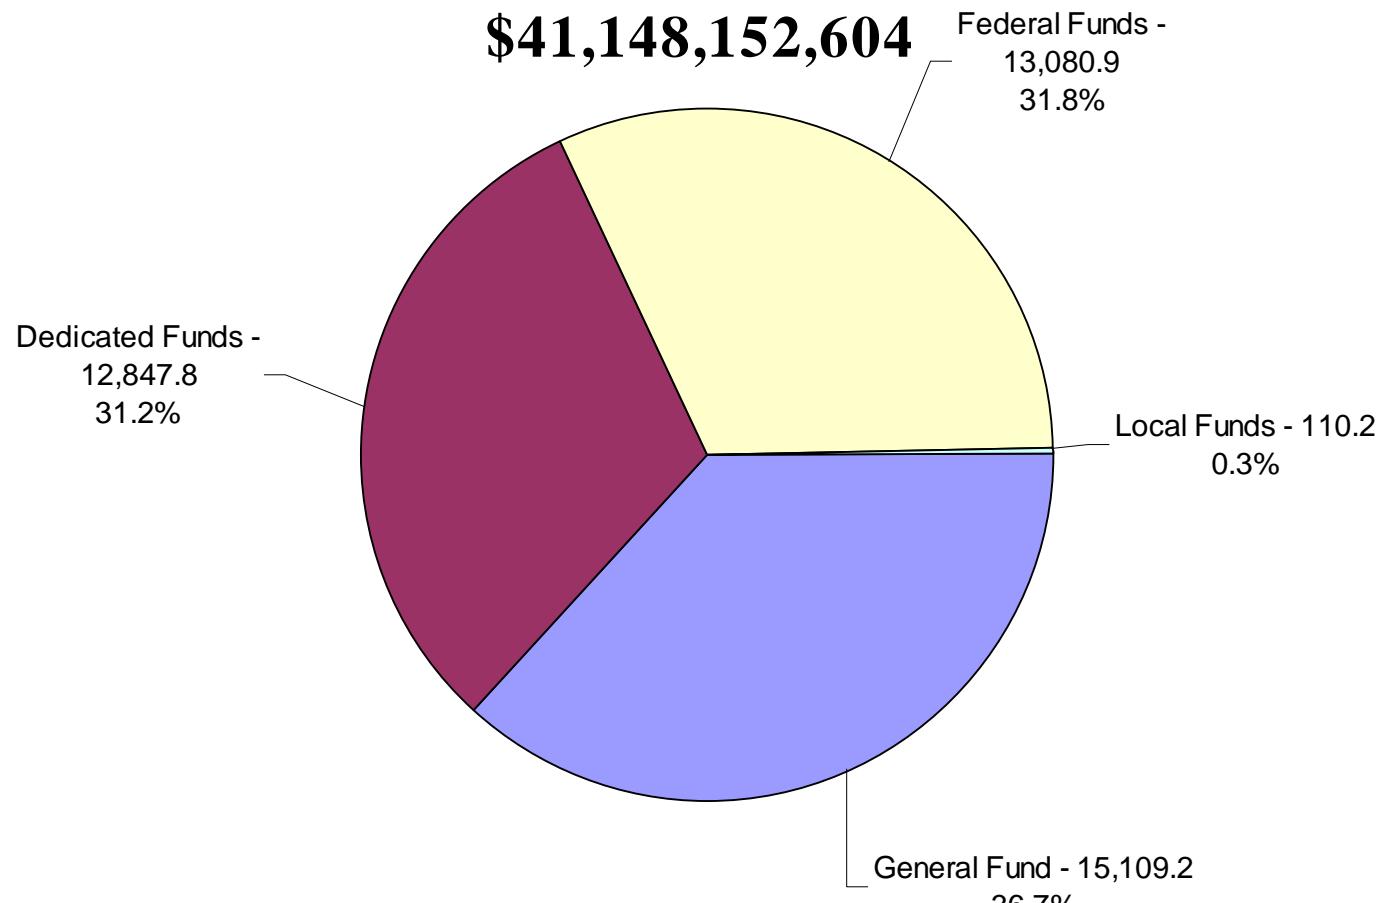

(2) The reductions in the Teachers Retirement Fund represent the use of dedicated funds in lieu of general fund. No reductions in current teacher pensions are contemplated.

(3) The FY 2002-03 distribution appropriation includes a one-time transfer of \$135 million of general fund to the lottery and gaming surplus account to cover a deficit in the account as required by statute.

General Fund and PTR Fund Revenues

Fiscal Years 2001- 2005

GENERAL FUND AND PROPERTY TAX REPLACEMENT FUND REVENUES

Indiana's state revenue forecast, which includes estimates of state General Fund and Property Tax Replacement Fund revenues, is developed by the Revenue Forecast Technical Committee. The committee, which consists of budget agency, legislative caucus staff, and a representative from academia, presented its forecast for fiscal years 2003 through 2005 in December 2002.

The U.S. economy entered a recession in March, 2001. As with past recessions centered around the manufacturing sector, Indiana felt the effects earlier than the nation. Employment peaked in Indiana in the second quarter of 2000. Between the second quarter of 2000 and the second quarter of 2002, employment in Indiana declined by 116,000. Nonfarm personal income in the state increased by 5.1%, or 1.6 percentage points more than inflation, during the same period. Steep declines in stock values combined with reduced corporate profits to further depress state revenues. As a result, General Fund and Property Tax Replacement Fund revenues declined by 1.0% in FY 2001 and 3.8% in FY 2002 – the first back-to-back declines in recorded history.

The revenue forecast for fiscal years 2003 through 2005 incorporates the following revenue measurers enacted as part of HEA 1001-2002ss:

- Cigarette and tobacco products taxes were increased effective July 1, 2002;
- The tax rates for sales and use taxes were increased effective December 1, 2002;
- Riverboat wagering taxes were restructured and a portion of the revenues directed to the Property Tax Replacement Fund.

General Fund and Property Tax Replacement Fund revenues are forecasted to increase by 14.0% in FY 2003, by 8.2% in FY 2004, and by 4.7% in FY 2005. Removing the revenue measures enacted as part of HEA 1001-2002ss reveals that this revenue forecast is for a slow recovery in state revenues. Without these revenue measures, the forecast would have been for General Fund and Property Tax Replacement Fund revenues to increase by 1.5% in FY 2003, by 3.0% in FY 2004, and by 4.5% in FY 2005.

The revenue forecast is based upon the following projections:

- Real growth in the nation's economy--as measured by real U.S. Gross Domestic Product — averaging 2.6% through the last six months of FY 2003, 3.0 percent for FY 2004, and 3.5 percent for FY 2005;
- Inflation rates — as measured by the GDP implicit price deflator — of 1.3 percent for the last six months of FY 2003, 1.4 percent in FY 2004, and 1.6 percent in FY 2005;
- Growth in Indiana non-farm personal income averaging 3.8% through the last six months of FY 2003, 4.3% for FY 2004, and 4.9% for FY 2005.

GENERAL GOVERNMENT

The General Government category consists of appropriations for the legislative and judicial branches of state government, for the offices of state elected officials, and for the executive branch agencies responsible for financial management, tax administration, and general administration.

Legislature

The recommended General Fund appropriations for the legislative branch total \$31.5 million in FY 2004 and \$34.6 million in FY 2005. The recommendation includes a 2.6% increase over the current appropriations to cover increased operating costs.

Judiciary

The recommended General Fund appropriations for the judicial branch total \$115.1 million in FY 2004 and \$116.3 million in FY 2005. These appropriations support the operations of the Supreme Court, the Court of Appeals, the Tax Court, the Clerk of the Supreme and Appeals Courts, the State Public Defender, the Indiana Judicial Center, the Public Defender Council, the Prosecuting Attorneys Council, and salaries and pensions of local judges and prosecutors. In addition to funding its own operations, the Supreme Court's appropriation funds the operations of the Division of State Court Administration, which include the state Guardian Ad Litem program, the Public Defender Commission, the Indiana Conference for Legal Education Opportunity, and the Civil Legal Aid Program. Recommended appropriations for the judicial branch also include:

- Increases to cover administrative staff pay plans for the Supreme Court, the Court of Appeals, the State Public Defender, and the Indiana Judicial Center;
- Funding for two new staff positions for the Supreme Court;
- Funding for new Supreme Court drug court and court interpreter programs;
- Funding for an expansion of the Supreme Court's family court program;
- Funding for additional office space for the Court of Appeals;
- Funding for training conference cost increases for the Indiana Judicial Center.

Attorney General

Recommended General Fund appropriations for the Attorney General total \$13 million for FY 2004 and \$13 million for FY 2005. The recommendation includes the transfer of responsibility for the welfare fraud unit from the Attorney General to the Family and Social Services Administration. The recommendation also includes an increase in funding for the Medicaid fraud unit, which will leverage additional federal funds and increase the number of Medicaid fraud investigations.

Department of Revenue

The Department of Revenue's mission is to administer the state's tax laws in a fair, equitable, timely, and courteous manner. This includes the collection of all applicable taxes due the state, encouragement of voluntary compliance through taxpayer education and enforcement procedures, maintenance of prudent fiscal control, timely deposits of revenue, and the provision of essential public information and quality service in a manner that promotes the highest degree of public trust and confidence. The Department of Revenue receives the largest general government share of general fund dollars; its recommended General Fund appropriation totals \$54.5 million each for FY 2004 and FY 2005. For the Current Year Estimate and Base budget, an adjustment in the Collections & Administration account is recommended to include funding for continued maintenance and support of the Department's critical Returns Processing System. Additionally, the Department will complete work in FY 2003 on the replacement of its obsolete Tartan data entry system. Lastly, the recommendations include funds for FY 2004 and FY 2005 to continue support of 27 field auditor positions.

Department of Administration

The Department of Administration receives the executive branch's second largest general government operating appropriation. The recommended General Fund appropriations total \$20.6 million for each year of the biennium. The Department provides central management support to the operating agencies of state government, including management of a system of process controls that protect the integrity and advance the efficient operation of the state's business operations. The Department's appropriation reflects the transfer of the Capitol Police operation to the Indiana State Police; and the additional costs for the utilities of the newly completed Indiana State Museum.

Other Executive Agencies

The Budget Agency has several contingency funds designated to pay for expenditures that are difficult to predict or estimate. These contingency funds, and their recommended appropriations, are:

- The Departmental and Institutional Emergency Contingency Fund, with a recommended appropriation of \$9.6 million for the biennium;
- The Personal Services/Fringe Benefits Contingency Fund, with a biennial recommendation of \$89.0 million. This fund is used to cover changes in the compensation and benefits of General Fund state employees. The actual amount needed for any increases in compensation and benefits depends on several factors, including the outcome of negotiations between the state and elected employee representatives and the actual costs of providing state employee health insurance. The recommended amount is expected to be sufficient for continued pay plan increases for state employees and allow for a limited redesign of the state's health care plans;

Recommended appropriations for most agencies in the general government category are at or below the amounts budgeted for the fiscal year 2003.

PUBLIC SAFETY

The Public Safety category consists of appropriations for the Department of Correction as well as law enforcement, regulatory, and licensing agencies. Public Safety comprises approximately 5.6 percent of all recommended appropriations and 9.7 percent of the recommended General Fund appropriations. A number of the agencies in the Public Safety category rely on appropriations from dedicated funds; in fact, Public Safety comprises approximately 6.2 percent of all recommended dedicated fund appropriations. Although several agencies rely heavily on federal funds, only a small percentage of total recommended federal fund appropriations are in the Public Safety category.

Department of Correction

The Department of Correction dominates the Public Safety category; it comprises approximately 60.8 percent of all recommended Public Safety operating appropriations.

The Department of Correction's mission is to protect the public by incarcerating offenders and to prepare virtually all offenders for community release in the most cost-effective manner. This mission is accomplished while the Department complies with all constitutional, legislative, judicial, and executive mandates, and while it facilitates community services development to decrease commitments of adults and juveniles. These community services include state funding for matching local funding for the community corrections program and funding for a portion of the costs of incarcerating misdemeanants in the local community.

The Department of Correction forecasts an average population growth rate of 2.7 percent for adult male offenders and a 3.8 percent growth rate for adult females during the 2003-05 biennium. To support this anticipated growth rate, the recommendations include a change in funds for the Department of Correction in the following major areas:

- \$38.3 million increase for the biennium to fund new bed spaces coming on-line at the Miami, New Castle, Rockville and the Indianapolis Juvenile facility;
- \$12 million increase to annualize current operational costs at Miami and New Castle;
- \$20 million increase in medical services;
- \$5.2 million decrease in the need for juvenile contract beds.

The recommendations add a total of \$68.1 million to Department of Correction's base budget for the biennium.

Indiana State Police

The Indiana State Police comprise approximately 18.0 percent of Public Safety's total recommended appropriations. The State Police's mission is to preserve and protect human life, enforce state and federal laws, identify and suppress criminal activity, monitor and control vehicle roadway traffic, and create a safe environment for the people of the state.

The Indiana State Police budget for the 2003-05 biennium will focus on providing efficient and effective service. Additional funds have been recommended to support a recruit school in each fiscal year of the biennium. The State Police recommendations include the transfer of 11 security officer positions and funding support from the Indiana War Memorial Commission to the State Police, Government Facilities Unit. For each year of the biennium \$35 million in funding from the State Highway Fund will be used to fund the Indiana State Police.

Other Public Safety

Other agencies in the Public Safety budget include the Adjutant General, the Alcohol and Tobacco Commission, the Board of Animal Health, the Bureau of Motor Vehicles, the Civil Rights Commission, the Criminal Justice Institute, the Department of Financial Institutions, the Health Professions Bureau, the Professional Licensing Agency, the Law Enforcement Training Academy, the State Emergency Management Agency, the Department of Fire and Building Services, the Public Safety Training Institute, the Department of Labor, the Department of Insurance, the Utility Regulatory Commission, the Utility Consumer Counselor, the Workers' Compensation Board, and the Integrated Public Safety Commission.

Current revenue sources dedicated to the Alcohol and Tobacco Commission are sufficient to meet the recommended appropriation level. As a result, the recommendations do not contain a General Fund appropriation for the Commission during this biennium.

The Health Professions Bureau and the Professional Licensing Agency will be merged as a result of this budget recommendation.

CONSERVATION AND ENVIRONMENT

The Conservation and Environment category consists of appropriations for the Department of Natural Resources, the Department of Environmental Management, and several other entities. The category comprises approximately 1.5 percent of all recommended appropriations and 1.4 percent of all recommended General Fund appropriations. Both the Department of Natural Resources and the Department of Environmental Management rely on dedicated funds; the category comprises approximately 2.6 percent of all recommended dedicated fund appropriations. While the Department of Environmental Management receives federal funds, only a small percentage of the recommended total federal fund appropriations are in this category.

Within the Conservation and Environment category, the Department of Natural Resources comprises approximately 42.3 percent of the total recommended appropriation. The Department of Environmental Management comprises approximately 56.8 percent of the total recommended appropriation.

Department of Natural Resources

The Department of Natural Resources' mission is to preserve, protect, enhance, and promote the wise use of Indiana's natural and historical heritage through effective and efficient management of recreational facilities, mineral and land resources, fish and wildlife programs, flood control procedures, water resources, and historical artifacts and landmarks.

The Department currently owns, leases, or manages more than 475,000 acres of Indiana land and water. The state's thirty-two state parks and reservoirs welcome close to 20 million visitors per year, and the seven inns accommodate more than 292,000 overnight guests per year. Indiana has sixteen state forests, recreation areas and nurseries totaling 149,445 acres and twenty-seven fish and wildlife properties (including eight fish hatcheries) totaling more than 119,000 acres. The Department's Water Division and Oil and Gas Division administer regulatory programs covering the state's water and petroleum resources. The Department's Bureau of Mine Reclamation administers federal and state laws dealing with surface coal mining and reclamation of mined lands.

The Department of Natural Resources recommendations include:

- Dedicated funding for the opening of the Prophetstown State Park which was authorized in the 1995-97 biennium;
- Dedicated funding for the implementation of a Centralized Reservation System to make reservations for campsites, cabins, shelters or recreation buildings via a call center or the Internet;
- Increased funding for the Department's Law Enforcement Division to support a recruit school to fill 17 vacant Conservation Officer positions;
- Dedicated fund support increased by approximately \$1.1 million than the appropriation for the 2001-2003 biennium;
- Appropriations for the State Parks Division and the Forestry Division will potentially exhaust all the resources in the dedicated State Parks Fund and the Forestry Fund to maintain essential services;
- Total General Fund recommendations are approximately \$12.7 million less than the appropriation for the 2001-03 biennium.

There is support for a heritage and cultural agency that would combine three divisions of the Department of Natural Resources (the State Historic Sites, and Historic Preservation and Archeaology), the War Memorials Commission, the State Library, the Historic Bureau, Public Records, and the Indiana Arts Commission. The combining of these state agencies will not have an immediate savings. However, approximately \$190,000 was saved in the 2003-05 biennium by unfunding vacant positions.

Department of Environmental Management

The Department of Environmental Management is dedicated to conserving, protecting, enhancing, restoring and managing Indiana's environment. The Department strives to fairly, but vigorously, to enforce environmental laws and standards; promulgate rules consistent with the law and public policy; and promote conservation, pollution prevention, and a healthy, sustainable ecosystem.

The Department is organized into four major program areas (Air, Water, Land, and Pollution Prevention). The Office of Air Quality serves the state by preserving and restoring the quality of Indiana's air by meeting the requirements of the federal Clean Air Act, developing state air quality standards and air quality control plans, evaluating and issuing permits for facilities, monitoring compliance and air quality, and establishing programs to reduce hazardous air pollutants. The Office of Water Quality is charged with protecting and restoring the quality of Indiana's water by enforcing the federal Safe Drinking Water Act and Clean Water Act, which includes developing and reviewing drinking water quality standards and requirements for Indiana's public water supply systems, issuing permits for water treatment facilities, monitoring compliance and water quality, and establishing watershed based cleanup programs. The Office of Land Quality strives to maintain and improve the quality of Indiana's land by implementing permit, compliance and cor-

rective action programs to ensure proper handling of solid and hazardous waste under state laws and the federal Resource Conservation and Recovery Act. The Office of Pollution Prevention and Technical Assistance works to reduce pollution at its source by developing plans with industries to prevent pollution, by managing grant programs, encouraging statewide recycling efforts, and educating citizens and industry via workshops and seminars.

For the Department of Environmental Management, the recommendations include:

- Additional base adjustment funding for the Department's Waste Tire Program and the Underground Petroleum Storage Tank Excess Liability program, both of which are supported by dedicated fees. These adjustments will draw from available balances to realistic expenditure levels to meet statutory demands in the 2003-05 biennium;
- Approximately \$4.9 million per year in General Funds will only partially be replaced by dedicated and federal funds.
- The recommended appropriations for the Water Management Permitting, Solid Waste Management Permitting, and Hazardous Waste Management Permitting accounts will potentially exhaust all of the resources of the Environmental Management Permit Operations Fund in order to maintain current essential services;
- Total General Fund recommendations are approximately \$9.8 million less than the appropriation for the 2001-03 biennium;
- The Department requested no new program funding for the 2003-05 biennium.

ECONOMIC DEVELOPMENT

The Economic Development category includes appropriations for the Office of the Commissioner or Agriculture, the Department of Commerce, and the Department of Workforce Development. This category comprises approximately 5.8 percent of the recommended appropriations for all categories and 0.9 percent of the recommended General Fund appropriations for all Categories

Office of the Commissioner of Agriculture

The mission of the Office of the Commissioner of Agriculture is to promote Indiana's agricultural industry by coordinating the support of state government agencies when working on agricultural issues and opportunities. The Office of the Commissioner of Agriculture is a sub-agency of the Office of the Lt. Governor, and serves as the parent agency for the Indiana Grain Buyers and Warehouse Licensing Agency, the Indiana Commission for Agriculture and Rural Development, the Indiana Land Resources Council, and the Indiana Rural Development Council.

The budget for the Office of the Commissioner of Agriculture has been reduced by 4% from current (FY2003) expenditures. The budget for the Office of the Lt. Governor has been reduced by 14%. Combined, these two reductions result in an overall reduction of 7% for all of the Lt. Governor's agencies combined. The Lt. Governor has elected to reallocate funding from the Office of the Lieutenant Governor to the Office of the Commissioner of Agriculture to maintain these important economic development programs..

Department of Commerce

The mission of the Department of Commerce is to promote the creation and retention of secure, high paying jobs for Hoosiers and to assist in building local economic development capacity and competitive communities. The Department of Commerce has been substantially re-organized during the current biennium, with the establishment of regional offices in 12 economic regions. As part of this reorganization, the Department is consolidating all its day-to-day operations into three primary accounts: Administration, Community Economic Development, and Overseas Trade offices.

In addition, several changes have been made in the Economic Development Funds administered by the Department, including:

- Suspension of additional funding for the Strategic Development Fund, Community Promotion Fund, and Tourism Information/Promotion Fund.
- Elimination of the Small Business Development Corporation. The economic development activities of the corporation will be assumed directly by the Economic Development Division of the Department. Some of the funding previously allocated to the Corporation has been redirected to the Local Economic Development/Regional Economic Development matching grant program.
- Reduction of the Funding for the Skills 2016 training grant program, Industrial Development Grant Fund, Economic Development Grant Fund, Industrial Development Account, and Business and Tourism Promotion Fund.
- The Airport Facilities Lease and the Aviation Technology Center appropriations have been transferred from the Department of Commerce's operating budget to the capital budget.

Department of Workforce Development

The mission of the Department of Workforce Development is to ensure lifelong learning for Hoosiers. The DWD combines the former agencies responsible for employment and training, vocational and technical education, and workforce literacy. The DWD strives to improve the skills of the Hoosier workforce via a network of 27 WorkOne offices and 66 WorkOne Express offices located in 16 Workforce Service Areas throughout Indiana. These offices provide core workforce services such as labor market and career information, skills assessments, employment counseling, case management, job development and placement, skills training, unemployment insurance, and information about and referral to community support services.

Requested and recommended General Fund appropriations for the Department of Workforce Development in the FY 2004-2005 biennium are \$2.9M (43%) less than FY 2002-2003 biennium appropriated levels. The DWD instituted many budget cuts as a result of the state's fiscal crisis. Economies were realized in DWD's total personal services budget and reductions were instituted in the areas of worker training, skilled credential, and workplace literacy programs. DWD's budget also reflects an increase in Indiana's portion of the Federal Reed Act from \$4 million to \$160 million for the biennium. Reed Act funds will allow Indiana to work toward building a world class workforce system for the future.

TRANSPORTATION

The Transportation category reflects appropriations for the Department of Transportation. It comprises approximately 9.2 percent of the recommended state budget, but only a minuscule percentage of the recommended General Fund appropriations. Nearly 100 percent of the Department's budget consists of dedicated and federal funds. The Department of Transportation comprises 19.6 percent of the recommended dedicated fund appropriations for all categories and 9.9 percent of the recommended federal fund appropriations for all categories.

The mission of the Department of Transportation is to provide Hoosiers with a transportation system that enhances mobility and stimulates economic growth while integrating safety, efficiency and environmental sensitivity. The cornerstone of the Department of Transportation is the Capital Improvement Program, which includes all phases of road and bridge construction and rehabilitation projects. The recent increase in the State Gas Tax, 1 cent goes directly to the State Highway Fund and 1 cent to continue the States bonding program, will allow the Department of Transportation to keep highway construction funding at approximately \$700 million through the biennium. For each year of the biennium \$35 million in funding from the State Highway Fund will be used to fund the Indiana State Police.

The Department also administers grants, totaling approximately \$36 million per year, to transit systems for operating subsidies and capital purchases. Funding for the grants is provided by Indiana's Public Mass Transportation Fund and federal transit grant programs. Additionally, the Department provides grants to small airports across the state through a federal-state-local matching program.

HEALTH AND HUMAN SERVICES

The Health and Human Services category consists of appropriations for the Family and Social Services Administration (FSSA), including the Medicaid program; the State Department of Health (ISDH), the Department of Veterans Affairs, the Special Institutions and several other smaller entities. Health and Human Services comprises nearly one-third of the recommended state budget and approximately 25 percent of all recommended General Fund appropriations. FSSA comprises approximately 94 percent of all appropriations for the Health and Human Services category, with the ISDH comprising virtually all of the remaining recommended appropriations. Federal resources are an important source of funding for agencies in the Health and Human Services category; the category comprises approximately 67 percent of all recommended federal fund appropriations.

Family and Social Services Administration

The Family and Social Services Administration (FSSA) was created in the 1991 General Assembly to bring several service departments under one policy and administrative umbrella by combining the former Mental Health, Public Welfare, and Human Services departments. The consolidation has resulted in more integrated services and streamlined delivery to hundreds of thousands of the state's most vulnerable individuals. Currently, there are four service divisions within FSSA including the Division of Family and Children (DFC), The Division of Disability, Aging and Rehabilitative Services (DDARS), the Division of Mental Health and Addiction (DMHA) and the Office of the Medicaid Policy and Planning (OMPP).

During state fiscal year 2002, FSSA identified more than \$33 million in state funds that have been permanently removed from its budget. In state fiscal year 2003, an additional \$11 million was removed. However, by federally leveraging state expenditures, previously solely funded through General Fund appropriations, FSSA continues to meet the service needs of our most vulnerable Hoosiers. FSSA has worked aggressively to reduce expenditures without impacting services and/or those served. The majority of the reductions to date have been achieved by renegotiating contracts, streamlining program administration, maximizing federal revenue, identifying other sources of revenue (i.e. dedicated) and choosing not to expand services through funding that was received in the prior biennium.

The recommendations provide FSSA with funding to continue providing major programs, including but not exclusively, CHOICE, ATTAIN, Project SafePlace, Domestic Violence, Youth Services Bureau, Substance Abuse Treatment, First Steps, Vocational Rehabilitation, Developmentally Disabled Residential Services, Seriously Emotionally Disturbed and Seriously Mentally Ill Services.

Medicaid

Medicaid is the single largest program in the Health and Human Services budget, comprising approximately 67 percent of the category. With the exception of a one-time decrease experienced in FY 1995, Medicaid has been one of the fastest growing areas of the state budget.

Structural reforms made in Medicaid reimbursement and delivery systems since 1995 have successfully met budgetary goals and curbed the growth of Medicaid in recent years. Nevertheless, expenditure growth is consistent with the national average and is expected to continue to outpace the state's revenue growth throughout the upcoming biennium. Thus, the Medicaid assistance General Fund budget recommendations reflect a 6.4 percent increase in FY 2004 over the FY 2003 appropriation and an 8.8 percent increase in FY 2005 over the FY 2004 projected expenditures.

Future Medicaid expenditures remain very difficult to predict for a number of reasons. First, it is not possible to accurately project the impact of federal and state welfare reform on Medicaid client populations or to anticipate changes in the economy to which client populations are sensitive. The enrollment growth is expected to account for approximately 4.2 percent of the projected overall increase in the coming biennium. By the end of the biennium, enrollment is projected to be 813,208. Second, TANF recipient growth is projected to continue rising in FY 2004 -2005 at the rate of 6 to 7 percent. Lastly, claims expenditure growth in some provider categories such as pharmacy, psychiatric and physician services continues to be relatively high and fluctuates considerably.

State Department of Health

The State Department of Health's mission is to promote, protect, and provide for the public health of people in Indiana. To achieve a healthier Indiana, the Department plans to promote integration of public health and health care policy, strengthen partnerships with local health departments, and support locally based responsibility for the health of the community.

The State Department of Health budget for the 2004-05 biennium will focus on providing basic and mandated public health services in a cost-efficient manner. No additional funding has been requested or recommended for the State Department of Health or its special institutions (Silvercrest Developmental Center, Indiana Soldiers' and Sailors' Children's Home, and the Indiana Veterans' Home).

Department of Veterans' Affairs

The recommended budget for the Indiana Department of Veterans' Affairs includes continued funding for operation of the veterans' cemetery in Madison. No additional funding has been requested or recommended for the Department of Veterans' Affairs.

EDUCATION

The Education category consists of appropriations for higher education (including the seven state-supported institutions of higher education and the State Student Assistance Commission), elementary and secondary education administration, aid to local schools, teachers' retirement, and other education. This category is the largest in the state budget, comprising 30 percent of all recommended appropriations and 53 percent of the recommended General Fund and Property Tax Replacement Fund appropriations. Elementary and secondary education (including administration, aid to local schools, and teachers' retirement) comprises approximately three-fourths of the total for this category, and higher education comprises approximately one-fourth.

Education comprises the single largest part of the state budget. Although the preceding pie charts suggest that dedicated funds are an important source of funding for education, most of this amount reflects the Property Tax Replacement Fund contribution to the local school aid formula (tuition support), which, for purposes of these recommendations, is treated as a General Fund appropriation.

Higher Education

The recommendations for higher education will flat line the FY 2003 operating appropriation into FY 04 and FY 05 at the level of appropriations received by colleges and universities after the Governor's Deficit Management Plan. R&R for universities, which was reduced to \$4M in FY 2002 and FY 2003, will be increased to \$32M for the biennium. The recommendation will fully fund fee replacement for university debt. The recommendation does not include funding our bonding authority for any new higher education capital projects. This recommendation continues to roll the payment delay to higher education into the next biennium.

Education Administration

Education administration comprises Department of Education accounts that are used to administer services to local schools. The majority of the funds pay for staff, rent, and computers that support programs administered by the state. Appropriations for most administrative accounts are at the levels received in FY 2003 after the Governor's Deficit Management Plan.

State Aid to Local Schools

State aid to local schools is comprised of accounts that distribute funds directly to local schools. The majority of funds in these accounts are distributed by statutory formulas. The recommendations include General Fund and Property Tax Replacement Fund appropriations for state aid to local schools be appropriated in the following manner:

- Tuition Support for schools is flat lined from the appropriation level as passed by the General Assembly in P.L. 291-2001.
- The payment delay of tuition support continues to roll into the next biennium.
- The ADA Flat Grant, Distribution for Transportation and Transportation for Special and Vocational Education are reduced by 50% in FY 2004 and 100% in FY 2005.

Teachers' Retirement

The recommendations increase the General Fund teachers' retirement appropriation over current levels by \$32.2 million in FY 2004 and by \$76.2 million in FY 2005. These increases reflect the projected normal growth in pension costs. The recommendations include \$190,000,000 in each of FY 2004 and FY 2005 from the Pension Stabilization Fund to meet current obligations.

DISTRIBUTIONS

The Distributions category consists of appropriations distributed through statutory formulas to local units of government.

The sources of these funds are state sales taxes, state income taxes, state alcoholic beverage taxes, state cigarette taxes, and state gaming taxes. These revenues, collected by the state, result from state taxing authority. Other tax revenues, such as food and beverage taxes, local option income taxes, and wheel taxes, are also collected by agencies of state government and distributed to local units. Those revenues, however, result from local taxing decisions.

Under HEA 1001-2002(ss), this proposed budget includes an additional \$1.1 billion for school general fund property tax relief in the first year and an additional increase of \$37 million in the second year. This represents approximately 67 percent of the general operating levy for schools and brings the state's share of the cost to operate schools to approximately 85 percent.

HEA 1001-2002(ss) requires that 75% of state riverboat wagering tax revenues be deposited in the Property Tax Replacement Fund. Of that amount, \$147.5 million is to be transferred to the Lottery and Gaming Surplus Account for distribution to local units of government in the form of motor vehicle excise tax replacement. An additional \$48.0 million is to be distributed to local units of government that experience decreased revenues from state riverboat admissions taxes as a result of the implementation of flexible scheduling by the riverboats.

RECOMMENDED CONSTRUCTION & REHABILITATION EXPENDITURES

2003-2005 Biennium

\$451,646,137

CONSTRUCTION AND REHABILITATION

Recommendations for Construction and Rehabilitation include funding for preventive maintenance, repair of existing state facilities, and construction of new capital facilities for all functions of state government including universities. Capital projects have traditionally been funded primarily from the General Fund, Post War Construction Fund, Cigarette Tax Fund, and a number of smaller dedicated capital funds. However, certain capital projects, particularly for state office buildings, prisons and universities, have been funded through the issuance of bonds.

The capital recommendations for the 2003-2005 biennium represent a strong commitment to the preservation of basic infrastructure. This includes \$37.8 million for preventive maintenance for most state facilities, which is approximately the same funding amount as the 2001-2003 biennium. The recommendations also provide \$85.7 million for repair and rehabilitation projects and \$243.3 million for lease appropriations.

Department of Natural Resources

Recommendations for the Department of Natural Resources are designed to insure that adequate funding is provided to protect the state's capital investments and to provide a safe and pleasurable experience for those who visit the state's park system. Due to restricted or reduced capital funding, many repair and rehabilitation projects have been placed on hold or funded through preventative maintenance. The recommendations provide for necessary repair and rehabilitation projects, as well as preventative maintenance.

Department of Correction

Recommendations for the Department of Correction include \$57.5 million for maintenance and rehabilitation of the State's correctional facilities. The repair and rehabilitation projects include: 29 projects related to life, health, and safety issues; 27 projects responding to necessary building/structure preservation; 8 projects responding to pertinent security issues; and 12 projects responding to program expansion associated with offender population increases.

Health and Human Services

The recommendations for the State operated health facilities (includes State developmental Centers, State Hospitals, and facilities operated by the State health department) total \$31.7 million. Significant funds are included for renovations designed to improve the care and comfort of those served. Major projects recommended include \$4 million to FSSA for asbestos, PCB's/EPA/IOSHA/ADA compliance, demolition, \$200,000 to finalize a master plan for regional facilities, and Life and Safety Contingency Funds at various FSSA facilities. To accommodate the State's regional health care facility approach, the recommendations include authorization of bonding to finance construction of one additional regional health care facility. Based on the authority provided in previous years, this additional authority will provide the authority to bond to finance construction of a total of five regional health care facilities.

Higher Education

The recommends include \$25.6 million for repair and rehabilitation for the seven state-supported institutions of higher education. This amount is the repair and rehabilitation appropriation for the 2003-2005 biennium.

Department of Administration

Finally, the recommendations include \$189.9 million for the biennium for the Department of Administration for payment of capital lease rentals to the State Office Building Commission. Of that amount, the Department will pay the Commission \$94.6 million, which is included as a General Government expense, to pay debt service on bonds issued to finance improvements to the Indiana Government Center campus. The Department will pay the remaining \$95.2 million, reflected as a Public Safety expense, to the Commission to cover costs associated with the financing of four correctional facilities.
